

## FIVE KEY REASONS TO PARTNER WITH US

Limber is a digital home-exercise and remote therapeutic monitoring platform designed to empower providers to augment in-clinic patient care with digital, at-home support to better meet patients where they are.

### 1. Customizable Programming

Providers can create individualized digital home-exercise programs using our custom HEP builder or select from 100+ pre-built protocols developed for non-surgical, post-regenerative, and surgical cases.

### 2. New RTM CPT Codes

Limber Health was instrumental in securing new CPT codes for Remote Therapeutic Monitoring (RTM) of MSK conditions.\*

### 3. Mayo Clinic Validation

Clinically validated through a clinical trial conducted at the Mayo Clinic.

### 4. Comprehensive At-Home Patient Support

Limber Care Navigators support patients in tracking therapy adherence, along with pain and function.

### 5. Winning Outcomes

Awarded 2020 Most Impactful New Technology by the American Congress of Rehabilitation Medicine.

\*Reimbursed through Medicare only.

## WELCOME TO **LIMBER HEALTH**

### **NOW REIMBURSABLE:**

FOR THE FIRST TIME, PROVIDERS CAN BE REIMBURSED FOR REMOTELY MONITORING YOUR MUSCULOSKELETAL PATIENTS FROM HOME WITH NEWLY APPROVED RTM CPT CODES.

We partner with you to seamlessly implement Remote Therapeutic Monitoring (RTM) into your practice. Providers now have a user-friendly tool to deliver increased access to at-home exercise therapy to your patients using powerful and streamlined remote monitoring capabilities - resulting in documented improved outcomes.

### **How Limber Can Enhance Your Practice and Support Your Patients**

#### **25K+ In New Profit Per Provider**

Generate up to 25K+ in new annual profit per provider for your practice.

#### **Track Outcomes**

Collect patient reported outcome measures to monitor your patients' success.

#### **Better Meet Patients at Home**

Enhance patient care by supporting patients at home.

#### **No Upfront Cost**

We make getting started simple, seamless and free of charge.
